

SHAYANTAN MITRA

Data Analyst | MIS & Business Reporting

shayantanmitra99@gmail.com | +91 91239 31438 | Kolkata, West Bengal | github.com/Dairanji | linkedin.com/in/shayantanmitra96

PROFESSIONAL SUMMARY

MIS and data reporting professional with 2.5 years' experience at RCF Ltd (India's largest fertilizer PSU), turning sales, stock, and operational data into dashboards and reports for 95+ dealers across 17 West Bengal districts. Strong hands-on foundation in Excel-based data cleaning, lookups, and formula-driven analysis, backed by real Power BI dashboarding and SQL project work. Currently expanding into formal data analytics through a Coding Ninjas / IITM Pravartak certification (GenAI-focused), building a broader analyst skillset on top of proven operational domain expertise.

WORK EXPERIENCE

Data Reporting & Operations Analyst | Jan 2024 – Jul 2026

Loknath Security — Deployed at RCF Ltd (Rashtriya Chemicals & Fertilizers) | Contract Role

- **Data Analysis & Reporting:** Analysed sales, inventory, and operational data for 95+ dealers across 17 West Bengal districts; produced 15+ daily, weekly, and monthly reports used directly for management decisions.
- **SAP SD Invoicing:** Processed 200+ invoices and billing transactions monthly with zero discrepancy, maintaining full compliance with company standards.
- **Process Automation:** Built a weekly aging stock tracker in Excel with urgency classification, pivot dashboards, and automated email outreach links — reducing manual follow-up time by ~40%.
- **Data Quality & Cleaning:** Performed data reconciliation, cleaning, and quality checks on invoicing records, maintaining 99%+ reporting accuracy across all datasets.
- **Stakeholder Coordination:** Liaised with 95+ distributor accounts and internal teams to monitor stock clearance, delivery timelines, and order fulfilment metrics.

PROJECTS

Weekly Aging Stock Comparison Tracker

Tools: Excel — SUMIFS, Lookups, Pivot Tables, Pivot Charts, Dashboard, Conditional Formatting, Slicers

- Built a production Excel tracker comparing weekly dealer stock snapshots across 95 retailers in 17 districts — automated urgency classification (Critical / High / Medium) and outreach links once the weekly master dataset is updated.
- Pivot dashboard with slicers and pivot charts gave management instant drill-down visibility, needing only a weekly master data refresh to stay current.

Sales Comparison & Analysis Dashboard — FY 2024-25 vs FY 2025-26

Tools: Power BI, DAX, Excel (~400K rows)

- Built a multi-page Power BI dashboard comparing RCF fertilizer sales across two financial years for all West Bengal districts — district breakdowns, monthly trends, and YoY KPIs.
- Consolidated two 400K-row Excel files into a single data model; cleaned and resolved data type and date errors for reliable analysis.

github.com/Dairanji/2024-25-vs-2025-26-Financial-Year-Sales-Analysis

Cafe Website — Freelance Project (omollies.in)

Tools: HTML/CSS, JavaScript, BigRock Hosting, Google Search Console, SEO

- Designed and deployed a full website for a Kolkata cafe client end-to-end — domain setup, SSL, performance optimisation, and SEO.

SKILLS

Data Analysis & Excel: Lookup, Index-Match, Data Cleaning, SUMIFS, Pivot Tables, Conditional Formatting, Charts, Data Validation

Power BI: Data Modelling, Multi-page Dashboards, Slicers, KPI Visuals, Financial Year Reporting

SQL: Joins, Aggregations, GROUP BY, Window Functions, Filtering

SAP SD: Invoice Processing, Billing, Order Management

AI-Assisted Workflows: Claude, ChatGPT, Gemini, Genspark, Antigravity — for Excel automation, formula and DAX generation, dashboard building, and report creation

CERTIFICATIONS

Professional Certification in Data Analytics with GenAI — Coding Ninjas | Awarded by IITM Pravartak - TIH | In Progress (Expected Dec 2026)
